- 13 A. Something in the general conditions or the

- 6 A. That's not exactly how it goes, but basically

- 8 Q. Do you know whether or not the project manager
- 9 would be able on a weekly basis to keep track of the

- 11 A. Yes.
- 12 Q. Is it typical in your company, in Creedon
- 13 Controls, for the project manager to track on a weekly
- 14 basis the hours expended on a job?
- 15 A. Yes.
- 16 Q. When a project manager became aware that his

- 18 estimated job would be, what would you expect the
- 19 project manager to do in that circumstance?
- 20 A. Assess the situation and see if he was getting

- 5 Q. Just a reminder that you are still under oath.
 - MR. PATRIZIA: Mr. Seglias, is there

 - MR. SEGLIAS: I don't think so.
- 9 Q. Okay. Miss Creedon, yesterday when we were
- 10 talking about Exhibit 41, which I believe is still in
- 11 front of you, it is the large document which is the
- 12 report that was prepared for Wilmington Trust, you
- 13 indicated that, if you turn to page the third page
- 14 of that document, which is CL 0524, that I believe
- 15 Miss Cerase had prepared this table of actual and
- 16 projected hours?
- 17 A. Yes.
- 18 Q. Would you tell me what you understand to have
- 19 been her source for the actual hours?
- 20 A. I believe her source were the payroli records.
- 21 Q. The payroll records received from the union
- 22 hall?
- 23 A. There are no payroll records from the union
- 24 hall.

- 3 Q. In the course of your review of the 6B project,
- 4 did you eyer have an occasion to go back and look at
- 5 the hours expended week by week to determine when the
- 6 project began to be ahead of the estimated hours for
- 7 the job?
- 8 A. Yes.
- 9 Q. And what conclusions did you reach when you did
- 10 that?
- 11 A. That we were ahead of the estimate when we
- 12 started the job and about February we were beyond the
- 13 estimate.
- Q. Were the number of hours expended on the job
- 5 aiready greater than the projected hours to that point
- 16 at the end of December?
- 17 A. I could not recall that
- 18 Q. If the projected hours were ahead at the end of
- 19 December, would you expect the project manager at that
- 20 point to try to make an estimate of the amount of work
- 21 remaining to be completed and the hours that would be
- 22 required to complete the work?
- 23 A. I would expect that, yes.
- 24 Q. And in fact, the work-in-process system would

- 2 A. Correct.
- 3 Q. Do you recall whether you received a
- 4 work-in-process report from Mr. Doble for the 6B
- 5 project in December of 2003?
- 6 A. No, I don't recall.
- 7 O. Do you recall whether you received such a
- 8 report in January of '04?
- 9 A. No, I don't recall.
- 10 : Q. Do you keep copies of the work-in-process
- 11 reports?

13

- 12 A. Generally I tosep copies, yes.
 - MR. PATRIZEA: Counsel, have the
- 14 work-in-process reports been produced?
- 15 MR. SEGLIAS: I can't tell you off the top
- 16 of my head whether they have or --
- 17 MR. PATRIZIA: We will certainly check,
- 18 but I would also ask you to check as to whether the
- 19 werk-in-process reports have been produced, and if so,
- 20 what the Bates range on them is.
- 21 BY MR. PATRIZIA:
- 22. Q. Looking at that same document, Ms. Creedon,
- 23 which is Exhibit 41, would you turn to the page which
- 24 Is Betesed CL:0535?

Page 251

- 1 Q. Do you know what the overhead and markup was on
- 2 the original proposal as it went?
- 3 A. I guess it, it varies whether you're talking
- 4 about the total contract or against the cost. And in
- 5 construction it can be against a contract or against
- 6 cost, which would have a variation of plus or minus 3
- 7 percent.
- 8 Q. Did you look at either of those numbers when
- 9 the proposal went in?
- 10 A. Idid. I don't recall off the top of my head
- 11 what it was.
- 12 Q. Does Creedon Controls have a policy that it
- 13 will always have a markup of 20 percent on every
- 14 proposal that it submits?
- 15 A. No, It does not.
- 16 Q. Do you know whether or not the overhead and
- 17 markup on the 21A and B contracts, the cable
- 18 conveyance tray projects, was that 20 percent overhead
- 19 and profit markup as they were submitted?
- 20 A. I do not recall that.
- 21 Q. In.any event, the proposals would be able to be
- 22 analyzed to reach a determination of what the overhead
- 23 and markup ware?
- 24 A. Correct.

Page 250

- 1 A. Yes.
- Q. At the top of that page there is a statement
- 3 that the original contract amount for all three
- 4 projects was 5,826,425. Do you see that?
- 5 A. I do.
- 6 Q. Why did you include the original contract
- 7 amount for all three projects in this discussion?
- A. At the request of Forest Electric.
- 9 Q. Was this discussion going to Forest Electric?
- 10 A. This I'm sorry, what did you say?
- 11 Q. Was this discussion going to Porest Electric?
- 12 I thought you told me yesterday that this document was
- 13 prepared for the bank.
- 14 A. That is correct. We were trying to represent
- 15 what we knew at the time to our banker.
- 16 Q. And that paragraph goes on to say that the new
- 17 contract price should be 7,716,667, allowing a 20
- 18 percent markup for overhead and profit. Do you see
- 19 that?
- 20 A. I do.
- 21 Q. Do you know whether or not in the initial
- 22 proposal that Creedon Controls had made on the 6B
- 23 project the overhead and profit markup was 20 percent?
- 24 A. No, I do not.

- Page 252
- Q. On that same page, under the heading "Banc One
- 2 Management Team" the first paragraph, the second
- 3 sentence says, "At bid time Forest-represented that
- 4 CCI's contract was with them." Do you see that?
- 5 A. 1 do.
- Q. Do you understand that at the time Creation
- 7 began work its expectation was that it was going to be
- B a contractor with Forest-Elettric?
- A. Izio.
- 10 Q. At the time that you entered into I'm sorry,
- 1 at the time that Creedon Controls entered into the
- 12 work in October of '03, did Creedon Controls have any
- 3 expectation that its contract was going to be with
- 14 anyone other than Forest Electric?
 - A. No, it did not.
- 16 Q. That section in the next paragraph talks about
- 17 daily coordination meetings. Do you see that
- 18 reference?
- 19 A. Yes.
- 20 Q. Who attended the deily coordination meetings
- 21 for Creedon Controls?
 - A. I'm not sure.
- 23 Q. Would it have been Mr. Doble?
- 24 A. It could have been Mr. Doble.

- 9 Q. This seems to say that the daily coordination
